In our training session, I learned several ways to open our class assignments and before I was only aware of how to do it through the assignment tab.

Natali Perez-Torres **Date:** August 30, 2008 6:53 PM

and yes I agree about the speech delivered by Obama. I hope we can all become that comfortable speaking in front on an audience. =)

In the webCT training I learned how to use the calander in depth. I've had online classes before, but never really used the calander. Now I will be more organized!

Rachel Foster **Date:** August 29, 2008 10:39 AM

I learned that when you see that little green square with the white little star in the middle it means that something new has been posted and I should probably take a look and see..

It's shocking how long he spoke without messing up or showing fear in anyway. I know my knees would have been shaking, it was insaaaaaaane. Hope we'll do that in a lesser degree.

I just had to post this  
Have a great day everyone!

I like that we can always see what our grade is in the class so we know where we stand and if we need to improve it.

It's all new to me since I have never used WebCT. But I like the fact that you can get to your assignments from multiple places on the site.
