

**MAC 1105 College Algebra**  
**Course Syllabus Addendum on Supplemental Learning**  
**Spring Term 2008**  
**Instructor: Kurt Overhiser**

\*\*\* Note this Addendum applies to the class with CRN: 20776 **ONLY**. \*\*\*

This course will be enhanced by Supplemental Learning (SL) – casual, small-group study sessions led by a student who has already passed the course with a high grade. In the SL sessions, you will compare notes with other students, discuss assignments, and develop organizational tools and study skills. Experience shows that students who take part in SL sessions make higher grades in this course.

**Take advantage of this academic support!**

Your Supplemental Learning Leader for this term is Ben Ford.

Ben will be conducting bi-weekly Supplemental Learning (SL) sessions beginning on January 14, 2008.

The scheduled days and times of the SL sessions are every Monday and Wednesday from 4:00 p.m. to 5:00 p.m. in Building 4 Room 216B.
