A Rubric will be provided for you detailing how your Final Report is assessed (graded). The breakdown of your entire 100 point project is below:

- **Feedback Checks Applying Formative Assessment (15 points total—5 points each)**
  - Project Proposal
  - Study Design
  - Data Gathering

- **Final Report Applying Rubric Summative Assessment (70 points total—7 points each)**
  - Finished Project Proposal
  - Finished Study Design
  - Finished Data Gathering
  - Side-by-Side Boxplots with outliers, if applicable (for means) OR Relative Frequency Side-by-Side Bar Graphs (for proportions)
  - Two Histograms (for means) OR Two Pie Charts (for proportions)
  - Conditions/Requirements
  - 2-Sample Hypothesis Test
  - 2-Sample Hypothesis Test (Continued)
  - Confidence Interval
  - Conclusion/Summary

- **Fill Out Survey (3 points)**
- **Peer Evaluation (12 points)**

Everyone in your group will get assigned the same amount of points for their one statistics group project regarding the Feedback Checks Applying Formative Assessment and Final Report Applying Rubric Summative Assessment. Two copies of the Final Report per group need to be submitted, and each copy must have the full names of all group members on it (as well as the days/times you attend class). The instructor may decide to keep one of the copies. The Final Report should have an appropriate title and include a conclusion/summary. Also, don’t forget to include final drafts of the Proposal, Study Design and Data Gathering.

The Final Report must be received by 11:59:59 pm on **Thursday, Dec. 3, 2009**. **Five points** will be deducted from your project grade for every day that the Final Report is late (including days on the weekends). This is applied to every group member. The Final Report will NOT be accepted after 11:59:59 pm on **Wednesday, Dec. 16, 2009**.

Each person in the group must fill out and turn in a Survey (with just that individual group member’s full name on it). The surveys must be received by 11:59:59 pm on **Thursday, Dec. 10, 2009**, and a point will be deducted from that individual group member’s grade for every day that his/her survey is late (including days on the weekend). The point deduction applies only to the individual and not to each group member.

After your group turns in your Final Report, each member will separately submit a Peer Evaluation to me via e-mail by **Thursday, Dec. 10, 2009**. Basically, you will be assigning a grade to the other members in your statistics project group for their performance on the project. This is done so that group members can be held accountable for “doing their fair share” and “pulling their own weight.” It will also provide a way for you to reward hard-working group members. The total amount of points that you will get from the other members in your group will be from 0 to 12 points. Directions regarding assignment of points are detailed in another handout.

Feel free to e-mail me if you have any questions or concerns.
