HONORS STATISTICS PROJECT

DUE DATES: (Fall 2009)

Let professor know the members of your statistics project group: Thursday, Sept. 17
Proposal: Tuesday, Oct. 6
Study Design: Thursday, Oct. 22
Data Gathering: Thursday, Nov. 12
Final Report: Thursday, Dec. 3
Survey: Thursday, Dec. 10
Peer Evaluation: Thursday, Dec. 10

The above due dates are for your statistics group project. You must be a member of a group for the statistics project. Group sizes will be of 2-4 students each. Join a group for working on the statistics project as soon as possible. Then send me an e-mail with the full names of everyone in your group by Thursday, Sept. 17, 2009. Each person in the group must send me such an e-mail so that I may check for consistency.

Note that, for the most part, everyone in the group will get assigned the same amount of points for their one statistics group project. Teamwork is required. It is important that you work together to design, execute and document the project. You may want to: identify times during the week that you can get together, clarify the expectations of each team member, and discuss how you will contact each other (e-mail and phone numbers). You may want to identify a team leader, secretary, computer expert, typist, liaison with the instructor, someone to write the proposal, someone to write the data exploration, someone to write the final analysis, etc. However, it is up to the group how the work is broken up. Each member of the team should expect to take on major tasks.

Feel free to e-mail me if you have any questions or concerns.
