

Linear Regression

Entering Bivariate Data into Your Calculator

Select the **STAT** button.

Select **EDIT**.

L1	L2	L3	3
74	51		
58	28		
86	80		
63	33		
86	90		
69	36		
72	58		
L3(1)=			

Type the independent variable (x -values) into L1.

Type the dependent variable (y -values) into L2.

****Be sure that the x -values in L1 line up with their respective y -values in L2.****
